

## **Which is our job ?**

Our job is the **water industrial treatment consulting**.

We intervene in all the countries of the world ( primarily Europ, Africa, Middle East).

Our time for an intervention depends on the place of this one and the quantity of preparatory work. This time can be very reduced (24 or 48 hours), in particular for the expertises requiring a fast intervention.

Our tariffs of services are communicated on request.

Our site is written in French and you can use the translator on line to read it in English.
